

## *National Recognition*

Guinevere M. Strack, a graduate student pursuing her master of science degree in chemistry, was selected to receive a travel award from the American Chemical Society (ACS) Division of Biological Chemistry. This award supported her attendance at the ACS national meeting in Philadelphia in August.

Strack has been working as a research assistant with Professor Evgeny Katz on a project related to biomolecular computing. This research studies biochemical mimicking of computing operations/devices using enzyme-based
